Treverbyn Academy

Our Special Educational Needs and Disability Information Report and Offer (SEND Information Report)

September 2024 - 2025

Welcome to Treverbyn Academy's SEND Information Report. At Treverbyn Academy, we are very proud to be an exciting, happy, and bustling primary school that aims to develop each individual in a caring and nurturing way. We are committed to being an inclusive school, welcoming children with a wide range of needs and working closely with families to support and celebrate every child's unique journey.

We believe that every child deserves an education tailored to their individual needs, both inside and outside of the classroom. Our dedicated staff are trained to support children with Special Educational Needs and Disabilities (SEND) and continually access additional training in order to enhance their skills and better support our children. We strive to narrow the gap between SEND and non-SEND pupils by offering a range of provisions designed to help every child achieve their potential.

Our first priority is ensuring that quality first teaching is provided for all children and young people at Treverbyn Academy.

Additionally, we also deliver a variety of targeted provisions to ensure all children receive the support they need. These include:

- Short-term specific interventions designed to address particular areas of need.
- 1:1 support sessions tailored to individual goals.
- Home-school interventions to foster collaboration between families and the school.
- Other learning interventions developed on a case-by-case basis

We also work with external agencies whenever necessary to ensure the best possible outcomes for our pupils.

Every child at Treverbyn Academy has the opportunity to follow all subjects in the Primary Curriculum. Our approach to teaching is highly differentiated and scaffolded, enabling every child to access all areas of learning in the Early Years Foundation Stage and beyond. Our talented team of teachers and assistants is passionate about creating an environment where all children can thrive, coordinated by our SENCO Miss Warn.

This report provides an overview of how we support children with SEND at Treverbyn Academy and reflects our commitment to helping every child

Name and contact details of the Special Educational Needs and Disabilities Coordinator: Holly Warn

Contact: <u>holly.warn@treverbyn.org.uk</u> 01726850503

Key Information:

The Children and Families Act (2014) requires schools to publish a Special Educational Needs (SEN) Information Report on their website. This report must include detailed and accessible information about how the school supports children with SEN and their families.

Below is a comprehensive list of what the report should include, based on the statutory requirements outlined in the SEND Code of Practice (2015):

1. The kinds of SEN provided for

• A description of the types of special educational needs and disabilities (SEND) the school supports (e.g., learning difficulties, communication needs, physical or sensory needs).

2. Policies for identifying children with SEN and assessing their needs

- How the school identifies pupils with SEN.
- How children are assessed to determine their specific needs.
- The name and role of the Special Educational Needs Coordinator (SENCO).

3. Arrangements for consulting with parents and involving them

- How the school works with parents/carers to involve them in decision-making.
- How parents are kept informed about their child's progress.

4. Arrangements for consulting with and involving children

• How the school ensures that children with SEN are involved in decisions about their education and support.

5. Approach to teaching children with SEN

- How the school ensures that children with SEN are supported to access the curriculum.
- Differentiation strategies and additional support provided within and outside the classroom.

6. Support for improving emotional and social development

- Measures to support children's well-being, including pastoral care.
- Access to interventions and strategies to develop social and emotional skills.
- The school's approach to preventing bullying.

7. How the school adapts the curriculum and learning environment

- Adjustments made to the curriculum to meet the needs of children with SEN.
- Accessibility of the school environment (e.g., wheelchair access, sensory rooms, quiet spaces).

8. Training and expertise of staff

- Details of SEN-specific training undertaken by teachers and support staff.
- Ongoing professional development to meet the needs of pupils with SEN.

9. Evaluating the effectiveness of SEN provision

- How the school monitors and evaluates the impact of its SEN support.
- Methods for reviewing pupil progress and effectiveness of interventions.

10. Additional support available for pupils with SEN

- External agencies and partnerships (e.g. speech and language therapists).
- Multi-agency collaborations to support children's needs.

11. How children with SEN are enabled to engage in school activities

- How pupils with SEN are included in school activities alongside their peers.
- Adaptations or additional support for extracurricular activities and trips.

12. Arrangements for transition between phases of education

• Support for transitions into school, between classes, and to secondary school or further education.

13. Complaints procedures

- Steps parents/carers can take if they are unhappy with the school's SEN provision.
- Who to contact and how concerns are addressed.

14. Contact details for support

- Name and contact details of the SENCO.
- Contact details for SENDIASS (Special Educational Needs and Disability Information, Advice, and Support Service).

15. The school's contribution to the Local Offer

- How the school's SEN provision links to the wider Local Offer provided by the local authority.
- Information on accessing the Local Offer website.

| | | |
| All children are encouraged to become independent and resourceful learners who take pride in their work. Children are encouraged to access resources for learning, including: • Vocabulary/widgit support • Maths resources (cubes, counters, dienes) • Dictionaries/thesaurus • RWI sound mat/word mat Staff support children to develop their personal learning through PSHE and whole school themed assemblies. Residential visits/trips and school camps are included in our curriculum offer so that pupils are provided with opportunities to become increasingly independent in a safe environment. There are a wide range of clubs available including: Yoga, arts/crafts, Football, crochet, Engineering, Computing club. Some pupils may choose to participate in public events such as the Choir Events or Engineering / STEM Events. Children are taught throughout the school to take responsibility for entering class and putting away their items, taking care of possessions and keeping their classroom/workspace tidy. Children are given roles within the classroom and within school to encourage citizenship and independence. | Teachers and TAs ensure children are confident in the task/learning before beginning independent work. Children are taught strategies to develop independence if they find their work challenging. This may include adapted and/or scaffolded learning resources, the use of sound/word mats or visual supports. Some students have personalised equipment to help them to learn, such as overlays or writing slopes. Chrome books and iPads are available to support children who need alternative methods of recording. Daily Sensory circuits is provided to support some pupils by aiding concentration and focus and/or improving co-ordination (depending on need) Social Skills groups, e.g. Lego Therapy, can be used to target pupils with specific needs relating to social interactions and behaviours for learning (e.g. listening, turn taking, managing resources) Cornwall Mental Health in Schools Team (CMHST) provide independent strategies which can be utilized by the children themselves including mood diaries, worry lists and self- esteem activities. | Adults working with individual children encourage the students to be as independent as possible when working. Teachers and TAs use resources, questioning, visual supports, concrete, resources and verbal prompts to develop independent working skills. Pupil Voice (All about me and IPM targets) is used to capture what pupils' feel they need support with and adults support children to gain skills in these areas. Additional support is shared to build resilience in the young person, so that they have self-coping strategies when and if the teacher/teaching assistant is absent. Visual supports are used consistently to promote independence including a visual timetable, task management, now/next, traffic lights, spot timers, widget visuals and choosing boards so that pupils can actively participate in their day and gain independence in their routine. |

6. Health, wellbeing and emotional support (include details of the support provided for improving emotional mental and social development of pupils with SEN, this should include support arrangements for listening to the views of pupils and measures to prevent bullying)

12. Pupil progress

Pupil's progress and attainment is an ongoing process of teaching, learning, consolidating and applying. This is completed by the class teacher and support staff. The Senior Leadership Team (SLT), SENDCo and Curriculum Subject Leads monitor and review this on a half termly basis with class teachers. The pupils are involved with self-assessments at the end of learning tasks and against learning outcomes in lessons. Considering personalised targets: pupils, parents and staff are involved with reviewing the successes of these and setting new goals and targets including celebrations of their achievements and successes. A summative assessment is recorded each half term and from this, pupil progress meetings are held with the Senior Leadership Team. This is a chance to discuss progress made, highlight any children who are not doing as well as expected and put additional interventions/support in place if required. If we feel outside agencies need to be involved, we will talk to parents/carers first and share our concerns before taking any additional steps.

13. How we know how good our SEND provision is?

At Treverbyn Academy we are always monitoring and evaluating the quality of our SEND provision. We monitor our provision through monitoring visits, SENDCo/SLT observations, learning walks and conversations with pupils. We then put in place a development plan to lead SEND forward which forms part of the whole school SEF (Self-Evaluation Plan) and SIDP (School Improvement & Development Plan). We also ask parents for feedback and comments during review meetings and through parental questionnaires. This allows us to adapt provision to better suit pupils if required and to get any additional support into school if needed. Many interventions are measured through entry and exit criteria to measure impact.

14. If you wish to complain

If you feel that you have concerns about your child's SEND provision then we urge you to contact school in the first instance, speaking to either the class teacher or SENDCo (Miss Holly Warn) to see if there is anything further we can do. Concerns may then be escalated, if necessary, to the Head of School (Mrs Maria Rundle).

Cornwall's SEND Local Offer

Cornwall's SEND Local Offer can be found on The Care and Support in Cornwall website: SEND Local Offer

http://cornwall.childrensservicedirectory.org.uk

Answers to Frequently asked Questions

1. How does your school know if children/young people need extra help?

Our school has an 'open door' policy to parents and have extremely well-developed links with the parents of the children that attend Treverbyn Academy. Children who may be vulnerable or those who are causing a concern to staff in terms of their behaviour or academic progress, for example, are regularly monitored and assessed by staff. Children's progress and behaviour are monitored through termly tracking systems. If a child transfers to our school from another Primary school then we always do our utmost to find out as much information as possible about the child from both parents and the child's previous school. If there are external professionals involved with the child, then their opinions and reports are sought after to ensure that we get the full picture of the child and their needs.

2. What should I do if I think my child may have special educational needs?

If you think that your child may have a special educational need then please talk to us. We are here to listen and to help. You should talk to your child's class teacher in the first instance and then after discussion a meeting may be set up with the Special Educational Needs and Disability Coordinator (SENDCo) and / or the Head of School. Following these meetings steps will be taken to address any concerns you may have about your child. This usually means that your child will be 'On Alert' for a minimum of two cycles of assess, plan, do, review – this means that additional support will be put into place and monitored closely. Following this, if little or no progress is noticed, your child may receive an Individual Education Plan (IEP), which will outline specific, measurable, achievable, relevant, time based targets, stating additional support that the school will provide in order to better access the curriculum. These will be shared with you as parents, regularly reviewed and new targets set/agreed. During this time, if progress is slow in specific areas, outside agency involvement may be requested to support. You will always be fully involved in this process and updated throughout.

3. Who is responsible for the progress and success of my child in school?

The progress and success of your child in school is everyone's responsibility. By 'everyone' we mean all school staff, parents as well as the child themselves. Progress meetings with staff ensures progress is tracked and monitored appropriately. It is the class teacher's responsibility to ensure that your child makes progress and enable them to access the curriculum at their level. The School SENDCo is there to support the class teacher where required, support in making referrals to outside agencies and to offer support and guidance where required.

4. How will the curriculum be matched to my child's needs and how will their needs be supported?

At Treverbyn Academy we are flexible and creative with our approach to the Early Years Foundation Stage Framework and Primary Curriculum and plan lessons to be accessible for all. In all classrooms there are three 'waves' of support: Wave 1 – universal support and resources available to everyone in that class; Wave 2 – targeted support and resources available or tailored for small groups of children; and Wave 3 – specialist support and resources specifically designed for or accessible by individual children. All lessons are adapted and scaffolded appropriately according to the needs of the children in that class or group whether it be by the amount of support children will receive, resources they may use or the expectation the teacher has of those children when that lesson is finished. Children sometime access learning in small groups or on a one-to-one basis for more intensive support from a teacher or teaching assistant, or to take part in an intervention program designed to meet and support the needs of that individual children. Children may also attend physiotherapy sessions or individual speech therapy support for example.

5. How will I know how my child is doing and how will you help me to support my child's learning?

Treverbyn Academy operates an effective 'open door' policy to create a constant positive dialogue with parents. In addition to this, staff may ask to speak with parents at the end of the school day, parents are invited to attend Parent Consultations in the Autumn term, and in the Summer term annual reports are sent home to parents with open-ended invitations to meet to discuss progress. All of this constant dialogue between school and parents will help you to support your child's learning at home and inform you of how they are progressing in school. If at any time you wish to discuss your child then meetings can be arranged with class teacher and / or SENDCo and/ or Head of School at your request. Parents with children who are on SEN Support or have an EHCP will also be open to meet with the SENDCo to discuss targets and progress. TAC and TAF meetings can help to inform pupils' progress. Tapestry is used effectively in the Early Years Foundation Stage and Key Stage One for effective communication and curriculum newsletter are sent termly to all classes/uploaded to the school website.

6. What support will there be for my child's overall well-being?

Your child's overall wellbeing will be constantly supported in school in a variety of ways. We will help them to be healthy by ensuring that they enjoy good physical and mental health as well as encouraging them to live a healthy lifestyle; we will keep them safe by protecting them from harm and neglect; we will help them to enjoy life and achieve well by giving them opportunities to make the most out of life and by beginning to teach them the skills they need for adulthood; we will help them to make a positive contribution to school, the community and society by being involvement with anti-social or offending behaviour; and we will contribute to their economic wellbeing by ensuring that they are not prevented by economic disadvantage from achieving their full potential.

As a school, we use a programme called 'Trauma Informed Schools' (TIS) – this is a programme which supports children's well-being, gives children a chance to reflect and express themselves. A 'trauma' can be something as simple as a house move, a pet dying, a change of school. We are also fortunate to have 'The Bay' which is our well-being room and sensory based provision.

7. How do I know that my child is safe in school?

At Treverbyn Academy we have a variety of measures, policies and procedures in place to ensure that your child is safe. All staff are checked by the Disclosure and Barring Service (DBS checks previously known as CRB checks) and have tier 2 child protection training. There are also named

members of staff who are trained to tier 3 in child protection these people are known as our Designated Safeguarding Leads. We have a safeguarding policy and have risk assessments in place for a wide variety of activities and situations that may arise.

8. How accessible is the school environment?

The school building at Treverbyn is accessible to everyone who attends school or who comes to visit us. We have good access to every classroom. We have a disabled changing facility and disabled toilets additionally, we also have ramps and lifts/hoists to support specific children.

9. How will school prepare and support my child through the transition from key stage to key stage and beyond?

Your child will be highly supported by school throughout every transition process. We meet with everyone involved in supporting a child's needs, talk to the relevant external professionals as well as involving members of staff from the next stage of schooling in these meetings. We have a good relationship with our local Secondary and Special schools. Transition visits and discussions are planned to ensure all information is passed across. Our school SENDCo will meet with the new SENDCo's to share information, additional support etc to ensure everything is in place to ensure a successful transition to the next stage of education.

10. What specialist services and expertise are available at or accessed by your school?

A list of specialist services used by the school and are accessible to us are on the Family Information Service website. http://www.cornwallfisdirectory.org.uk/kb5/cornwall/fsd/home.page

11. How will my child be included in activities outside the classroom including school trips?

Everyone is included in everything at Treverbyn Academy. Activities outside the classroom are a part of everyday life for us and we undertake a variety of school trips throughout the year. All children are encouraged to take part in after school clubs, and those children who need it are supported appropriately. The same applies when it comes to trips and camps and adaptations are made where necessary to ensure that every child is included whilst at the same time carefully ensuring that those adaptations do not affect the experiences of other children.

12. How are the school's resources allocated and matched to children's special educational needs?

Each year the school decides on an allocation of money for special educational needs and disabilities (SEND). For all children on the school's SEND register the school itself is expected to meet the first £6000 of any resources and support required by each individual child. This is 'notional' amount rather than ringfenced for individual pupils. For those children with an Education, Health and Care Plan (EHCP), spending above the £6000 may be claimed back from the local authority up to a limit set by the resources provided by the statement. In-school resources and support are detailed in Individual Provision Maps (IPMs). These plans are individually tailored to each child on the SEN register and specify which resources will be used to support that child, how much support they will receive and whether any additional adult support will be used.

The school carefully considers appropriate deployment of support staff to meet the needs of individuals or groups of children. This can take the form of: • Whole class support, group support, 1:1 support • Involvement in planning and assessment as appropriate • Lead planned interventions (eg RWI, SALT, precision teaching for individual need) • Behaviour support

13. What SEND training have the staff at school had or are having?

The Special Educational Needs and Disability Co-ordinator (SENDCo) is undertaking the accredited Post-Graduate National Award for SEN Coordination (NPQ SENDCo), an 18 month long qualification which looks in depth at the differing types of special educational need, research and pedagogy into a wide variety of educational topics as well as how best to support children with SEN in school. Ongoing CPD and staff training needs are identified and supported through a variety of training delivered by the Aspire Academy Trust.

14. What should I do if I feel that the Local Offer/the Information Report is not being delivered/is not meeting my child's needs?

If you feel that the Local Offer/ SEN Information report is not being delivered or is not meeting your child's needs then we urge you to contact school in the first instance, speaking to either the SENDCo (Miss Holly Warn) or Head of School (Mrs Maria Rundle). Concerns may then be escalated if necessary to the Director of Inclusion (Sally Hannaford) or to the Board of Directors at Aspire Academy Trust

15. How is your School Offer and Information report reviewed?

Our School Offer and Information Report is reviewed on an annual basis in consultation with staff, parents and directors of the school.

16. Who can I contact for further information?

Should you require any further information please contact either Mrs Maria Rundle (Head of School) or Miss Warn (SENDCo).
